

Vista

Vista Seating Collection

The Vista seating collection is designed exclusively for healthcare waiting areas and patient rooms, either as individual units or configured to suit virtually any room layout. Available in 3 widths: 21", 24" and 31".

Standard Features

Vista seating products incorporate the following features specific to healthcare seating products:

- Steel seat frames for extra strength
- Field-replaceable seat and back upholstery
- Field-replaceable end frames
- Ample clean-out space between seat and back
- Wall-saver rear leg design
- Seat and arm heights designed for easy ingress and egress
- Seat and back foam meets or exceeds CAL 117-2013 flammability requirements
- Limited lifetime warranty
- Nylon-webbed seat deck for improved comfort

Options

- Round or square back
- Flex-back (on 21" guest and patient chairs)
- Urethane arm
- Moisture barrier
- CAL 133 compliance

Construction Specifications

Wood end frame assemblies are constructed from European steamed beech, available in the 7 attractive wood finishes shown below:

- Candlelight (CL) • Cherry Blossom (CB) • Chocolate (CH)
- Hard Rock Maple (HM) • Mahogany (MA)
- Rustic Cherry (RC) • Summer Flame (SF)

Steel seat frame is constructed of 14 gauge steel and is fastened to wood end frames with "metal-to-metal" connectors.

Seat and back foam are high-resilience, 2.5lb density polyurethane foam.

Weight Rating

- Bariatric 750lbs.
- Mid-size 550lbs.
- Standard 400lbs.

Shipping
