

JENSEN CONSTRUCTION –

- Fully welded chair frame is constructed of 14 gauge 1 ¼ x 1 ¼" steel tubing, and 1/8" and 3/16" thick formed steel components and powder coated for long life
- Contoured back panel is constructed of laminated, high density hardwood veneers using a RF process and a UF resin with very low offgas emissions
- Plywood seat panel is covered with a hytel elastomer composite that retains its original shape for long life and enhanced comfort
- Foam contains environmentally-friendly bio-based materials, and is California TB117-2013 Compliant. Hi-resiliency foam resists flattening for longer life and enhanced comfort
- European Beech arm caps are 5 axis CNC machined, then sanded with 220 grit paper for an extra smooth finish
- Durable non-marking nylon glides
- Built to withstand Dynamic Drop impact of 750lbs

FEATURES –

- Fully welded design ensures long-term structural integrity
- Standard sled base
- Available in 2 seat widths: 24" and 31"
- Seat, back and arm caps can be easily replaced if necessary
- Arm caps designed for easy ingress and egress
- Wall-saver frame design protects walls from damage
- Non-removable nylon glides to protect floors from damage
- Tamper-resistant fasteners
- Standard metal seat pan to conceal staples
- Exceeds BIFMA seating durability test to 500lb

OPTIONS –

- Arm caps available in wood, or solid surface
- Bolt-to-floor brackets
- Added weight
- Contrasting fabrics
- Custom finishes
- Moisture barrier
