## Lounge and Guest/Side Stacking Seating

Stance Healthcare has been awarded credit 7.4.4 ANSI/BIFMA e3 2019 – Target Chemical Elimination, for our level certified seating products, following a thorough analysis of the following:

### FLAME RETARDANTS

Stance Healthcare's suppliers attest that there are no Flame Retardant chemicals present in the foam used in their seating products.

Additionally, standard Stance Healthcare textiles are Flame Retardant free\*. Customers are responsible for the chemical contents of nonstandard textile requests.

### PER AND POLY-FLUORINATED COMPOUNDS (PFAS)

Catalysts, Stains, Varnishes, Powdercoats, and Poly Arm Caps used in Stance Healthcare's products are PFAS-free.

Standard Stance Healthcare textiles are PFAS-free\*. Customers are responsible for the chemical contents of nonstandard requests.

### ANTIMICROBIALS

Stance Healthcare does not typically add antimicrobial chemicals to its products.

Standard Stance Healthcare textiles are antimicrobial-free\*. Customers are responsible for the chemical contents of nonstandard requests.

### POLYVINYL CHLORIDE (PVC)

Stance Healthcare no longer employs the use of PVC edge banding on these products and uses PVC-free casters in its products. Electrical components are exempt from this standard.

### FORMALDEHYDE AND OTHER VOCS

All level® certified Stance Healthcare products are MAS Certified Green to meet the formaldehyde emissions requirement. Our products have been tested in accordance with ANSI/ BIFMA standard method M7.1/ X7.1-2011 R2016 and ANSI/BIFMA e3-2019. Certificates are available upon request from Stance Healthcare.

\*Please reach out to Stance Healthcare for more information on material options (e.g. textiles) that comply with credit 7.4.4.
