

SPLIT-TOP OVERBED TABLE CONSTRUCTION –

- Top: 1" thick MDF substrate, surfaced with thermofoil laminate. Top surface recessed for spill containment. Underside radiused to eliminate sharp edge
- Column: Powdercoated 11-gauge tubular steel
- Base: Powdercoated 12-gauge tubular steel

FEATURES –

- Thermoformed upper top with spill-containment surface
- Pneumatic cylinder permits infinite height adjustment between 29.5" and 44.5"
- Heavy-duty 12-gauge steel column and base
- Oversized, 2" dual-wheel casters provide easy maneuverability

OPTIONS –

- Available with C-base or H-base
- Vanity tray with mirror
- Custom finishes
