

Corian® Solid Surface Finishes

Stance

# Solid Surface in Healthcare

In a healthcare environment, surface areas like table tops and arm caps are a critical design aspect of a given space – they can affect everything from an area's safety and cleanability, to its aesthetics and comfort. Increasingly in the post-COVID era, surface finish selections are a top consideration for designers and facility planners when specifying products for healthcare.

At Stance, we are proud to offer Corian® Solid Surface finish options across many of our product categories. This material is the original solid surface offering in the marketplace and remains the go-to solid surface selection for healthcare furniture, and for good reasons: Corian® Solid Surface is a virtually maintenance-free finish selection that is highly customizable, easy-to-clean and withstands the test of time.

# About Corian® Solid Surface

Developed in the 1970s, Corian® Solid Surface is composed of resins, epoxies, natural limestone and pigments, which combine to form a non-porous surface that doesn't require sealing or polishing. The material was originally designed to be an attractive alternative to the limited counter top options available decades ago – and since then, it has evolved to continually offer a variety of colors and patterns that make healthcare application seamless.

**Corian® Solid Surface Benefits for Healthcare Environments**

- Non-porous and seamless, helping prevent moisture absorption and reducing areas where bacteria, mold, mildew, and contaminants can accumulate, supporting infection prevention and hygiene protocols.
- Easy to clean and maintain, requiring no sealing or refinishing while maintaining a consistent, hygienic surface appearance over time.
- Exceptionally durable and impact resistant, standing up to the demands of high-traffic healthcare environments where other materials may chip, crack, stain, or require replacement.
- Repairable and renewable, allowing scratches, chips, and minor damage to be restored rather than replaced, extending product life and reducing maintenance costs.
- Lower lifecycle costs, thanks to reduced maintenance requirements, long-term durability, minimal downtime, and extended service life.
- Long-lasting aesthetic performance, retaining its appearance and helping healthcare facilities project cleanliness, professionalism, and quality care to patients and visitors.
- Flexible design capabilities, enabling seamless installations, integrated features, and custom solutions that support both functional and aesthetic objectives.
- Stain resistant and highly durable, maintaining a clean appearance even in demanding clinical and public environments.
- GREENGUARD Certified®, contributing to healthier indoor environments through low VOC emissions.
- Extensive color and design options, offering a broad palette of standard and custom options to complement any healthcare space.
- Proven long-term value, delivering a combination of durability, repairability, cleanability, and aesthetic retention that makes it a preferred choice for healthcare organizations focused on total lifecycle performance rather than upfront cost alone.

# Products Featuring Corian® Solid Surface

Corian® Solid Surface is offered as an option on several of Stance's product lines:

**Occasional Tables –**

Pavilion

Capri

Resilia

Bail

Bora

Villa

Jensen

Huxley

Cassia

Gem

Iris

Oakley

**Metal Seating –**

Legend

Vista II

Oasis

Spry

**Wood Seating –**

Cleo

Oakley

**Lounge Seating –**

Jensen

Cassia

Carson

Huxley

Verity

Oakley

Oasis Glider

Podium

Rochester

Cleo

**Bench Seating –**

Olsen

**Casegoods –**

Kindred

Gibraltar

Camber

# Spry

The Spry Seating Collection features Corian® solid surface arm caps as well as connecting tables and coordinating freestanding tables. Spry's solid surface arm caps are thin and simply designed for maximum cleanability; making the product a stand-out in the healthcare seating marketplace. The ability to specify solid surface on the collections arm caps, connecting tables and freestanding tables provides a cohesive and effortless design.

# Corian® Solid Surface Finish Options

"Corian Solid Surface is simply the ideal surfacing material for healthcare applications. Its non-porous, seamless and hygienic properties prevent bacteria and mold growth which reduces infection spread. Plus, it offers easy, durable cleaning for heavy use environments and incredible customization options—making it one of the smartest investments you can make for any healthcare space."

Cesar Fernandes,
Product Design & Development Manager

Stance offers 8 standard solid surface options:

Glacier White

Cameo White

Bisque

Linen

Pearl Gray

Silver Gray

Dove

City Roast

**HOW TO CLEAN CORIAN® SOLID SURFACE –**

Solid Surface Table Top: For most residues, all you need to clean your Corian® table top is warm soapy water, ammonia-based household cleaner, or a dedicated counter top cleaner found at your local grocery store. Do avoid window cleaners, however, as they can leave a waxy build-up that dulls the surface.

Most Dirt and Residue: Use soapy water, ammonia-based cleaner (not window cleaner), rinse and wipe completely dry. Commercially available solid surface cleaners, such as Clean EnCounters® will also work well.

Preventing Hard Water Marks: Rinse and wipe completely dry after cleaning; clean up spills before they dry.

Removing Hard Water Marks: Use cleaner formulated for removing hard water marks, such as CLR® or Lime-A-Way®

Disinfecting: Occasionally wipe surface with diluted household bleach – 1:100 (5 Tbsp. of bleach to 1 gallon of water, as recommended by the Centers For Disease Control and Prevention for disinfection of surfaces).
