

Certification Summary

Upholding Standards for Safer, More Sustainable Furniture

In the pursuit of a sustainable future, Stance Healthcare understands the environmental responsibility demanded of the industry, and is committed to excellence. Rooted in our core values, we prioritize exceeding compliance with environmental regulations through continuous improvement and pollution prevention practices. Our dedication to sustainability is evident in our rigorous adherence to industry certifications, including Level®, MAS Certified Green®, and BIFMA compliance.

LEVEL® CERTIFIED PRODUCTS –

Many of our seating products at Stance proudly bear the Level® certification, which is a testament to our environmental stewardship. This certification, which conforms to the BIFMA e3 Furniture Sustainability Standard, reflects our dedication to addressing a broad spectrum of sustainability aspects. From corporate and social responsibility to energy usage and raw material selection, Level® certification underscores our holistic approach to sustainability.

By adhering to the Level® standard, we ensure that our products meet stringent environmental criteria and prioritize the well-being of users and the ecosystem. We strive to minimize our ecological footprint while maximizing positive social impact through continuous improvement initiatives and adherence to best practices.

CERTIFIED PRODUCTS INCLUDE –

Attesa BH, Accent, Accent BH, Accent Jr., Attesa Jr., Integrity, Jax BH, Jensen, Kite (metal), Legend, Legend BH, Marathon, Oasis, Oasis BH, Spry, Vista II, Vista II BH, Carson BH, Cassia BH, Clover, Clover BH, Jensen BH, Onward BH, Riviera, Rosetta, Rosetta BH, Valet, and more.

MAS CERTIFIED GREEN® –

To continuously improve the sustainability of our furniture, Stance voluntarily participates in the MAS Certified Green® program. This program entails rigorous volatile organic compound (VOC) emissions testing, which aims to limit the release of harmful chemicals into indoor environments.

As VOCs can be significantly higher indoors than outdoors, our commitment to MAS Certified Green® underscores our dedication to creating healthier indoor spaces, particularly in healthcare environments where air quality is paramount. By meticulously designing and manufacturing our furniture to lower chemical emissions, we prioritize the well-being of patients, staff, and visitors.

BIFMA COMPLIANCE –

Stance products not only meet but exceed industry standards through BIFMA compliance. The Business + Institutional Furniture Manufacturers Association (BIFMA) sets rigorous safety and durability standards for manufactured furniture, ensuring that products meet stringent criteria for performance and reliability.

BIFMA compliance validates products against rigorous performance standards for manufacturers, assuring quality and reliability. For specifiers, it offers confidence in recommending trusted products that meet industry benchmarks. For buyers, BIFMA compliance mitigates risk, improves employee safety and productivity, and instills confidence in purchasing decisions.
